Candidate Examination
Handbook

March 2022

The National Alliance of Wound Care & Ostomy® (NAWCO®) is a non-profit organization that is dedicated to the advancement and promotion of excellence in wound care through the certification of wound care practitioners in the United States. The Certification Committee of the NAWCO® is the governing body of the DWC® credential.

The aspiration of the NAWCO® is to unify wound care providers & practitioners from different educational backgrounds along the health care continuum in an effort to streamline the delivery of quality wound care.

The NAWCO® offers the "Diabetic Wound Certification Examination" to measure the academic and technical competence of eligible candidates in the area of Diabetic Wound Management beyond their basic wound care certification credential. The DWC® credential is performed in accordance with legislation code and practice guidelines as determined by each respective professional state regulatory/licensing board. Therefore, DWC® certification alone does not determine a practitioner's scope of practice.

NAWCO® does not discriminate against any individual on the basis of race, color, creed, age, sex, national origin, religion, disability, marital status, parental status, ancestry, sexual orientation, military discharge status, source of income or any other reason prohibited by law. Individuals applying for the examination will be judged solely on the published eligibility requirements.

The Need

Worldwide, there are more than 246 million people living with diabetes, with 23 million in the US alone.¹ Without effective prevention and control programs, projections estimate that the number of people with diabetes will continue to increase globally to 438 million by 2030.²

In developed countries, one in every six people with diabetes will develop a foot ulcer during their lifetime.³ 85% of those with a foot ulcer will succumb to the ultimate consequence of limb amputation.³ More than one and half million diabetes-related amputations are performed annually. Research by the International Diabetes Association shows that up to 85% of amputations resulting from diabetic foot disease are preventable.³

Without action, global rates of diabetic foot disease, and the amputations associated with its poor management, will increase alongside this forecasted rise in the prevalence of diabetes. To meet the need for specialized clinicians dedicated to the treatment and prevention of diabetic foot complications, the National Alliance of Wound Care and Ostomy® (NAWCO®) is sponsoring the Diabetic Wound Certification (DWC®).

Objectives of Certification

The objective of DWC® certification is to provide assurance to the public by promoting the delivery of safe and effective diabetic wound and skin management by:

1. Recognizing formally those individuals who demonstrate proficiency and mastery of knowledge, expertise, and skills in diabetic wound management above basic wound care certification.
2. Providing a standard of knowledge required for certification based upon American Diabetes Association® (ADA®) clinical practice recommendations and other evidence based practice and research in the field of diabetic wound management.
3. Establishing and measuring the level of knowledge required for certification in diabetic skin and wound management.

4. Promoting continued professional growth in diabetic skin and wound management.

Credentials

Upon successful completion of the Diabetic Wound Certification examination, candidates may use the initials DWC®, Diabetic Wound Certified® to designate their status. Credentials are awarded for a five (5) year period after receiving a passing score on the examination.

Upon expiration of credentialing term, the DWC® is required to recertify with the NAWCO® to maintain their credentials.

"DWC® has been registered with the United States Patent and Trademark Office as the official certification mark of the Diabetic Wound Certification sponsored by the National Alliance of Wound Care and Ostomy®.

Certificate of Certification

The NAWCO® will award an official numbered electronic certificate to all candidates upon passing the NAWCO® Diabetic Wound Certification examination, denoting status as DWC®, Diabetic Wound Certified®. The certificate can be downloaded on the Certificant's Login section of the NAWCO® website.

Credential Verification

To ensure public safety and ethical practices, the National Alliance of Wound Care and Ostomy® provides credential verification. Interested parties, including the general public, can verify DWC® credentials using the credential verification search feature located at www.nawccb.org.

Scope of Practice

The role of the DWC® is based upon expert evidence based clinical knowledge and skills that are practiced in acute, outpatient, long-term care, and home care settings.

The focus of the DWC® is on high quality care to achieve optimum patient outcomes, cost control in diabetic wound management, and prevention of complications.

In order to assure appropriate and thorough diabetic wound management, a holistic comprehensive approach is utilized. All factors affecting healing, including considerations of systemic, psychosocial, and local factors are

reviewed. The DWC® provides direct patient care, necessary patient education, and prevention measures through comprehensive assessment, referrals, and continuing evaluation of high risk diabetic patients and all types of diabetic wounds.

Diabetic wound management requires the skills of the interdisciplinary team that includes the DWC®, physician, nurse, dietitian, physical therapist, occupational therapist, social worker, and other health care disciplines or providers depending upon each individual patient assessment.

The scope of practice for the Diabetic Wound Certified (DWC®) health care professional is performed in accordance with legislation code and scope of practice as determined by each respective professional state regulatory board along with prospective employer mandated guidelines. As with any specialty, certification does not supersede state practice acts nor does it permit a clinician to practice beyond their individual knowledge or expertise.

NAWCO® does not require a waiting period between the first and second attempts. However, between the second and third, and the third and fourth attempts, candidates will be required to wait for 30 days before they will be scheduled to retest. This will provide the candidate with time to focus on areas of weakness identified on the score report strengthening their knowledge base.

Candidates who allow the two (2) year time limit to expire, but who do not exhaust the four (4) exam attempts, are not required to wait one (1) year prior to reapplying to take the exam again. Candidates are encouraged to self-study or attend a wound management-training course during this time. Unsuccessful candidates are not eligible for any refunds.

Reschedule of Examination

Appointments

If you need to cancel your examination appointment or reschedule to a different date, you must contact Prometric at 1-866-773-1114 no later than 30 days prior to your scheduled time. If your appointment falls either on a Monday or the day after a holiday, you must call the last business day prior to your appointment to reschedule. Security

NAWCO and its testing partners maintain test administration and test security standards that are designed to ensure all candidates are provided the same opportunity to demonstrate their abilities. Before, during and after examination, all candidates are expected to conduct themselves in an ethical manner. LRP administrations are continuously monitored by the proctor and are recorded.

To take the examination via live-remote proctoring, candidates must download monitoring software as prompted by the testing vendor. The testing computer's cache is deleted before testing and after testing. Candidate key strokes and behavior are monitored, and irregular behavior may result in termination of the exam or cancellation of exam scores. Candidates may not attempt to record, copy, or otherwise compromise exam content.

If the proctor observes the candidate violating the exam day rules, the candidate will be immediately notified. If irregular behavior continues after a warning from the proctor, is extreme, or indicates cheating, the exam session will be immediately terminated and the incident reported to the NAWCO.

Incidents of reported cheating will be investigated by the NAWCO. If a candidate is found to have

cheated, that candidate's exam will not be scored, and the candidate will be barred from taking any further NAWCO examinations indefinitely.

All LRP exam administrations are continuously monitored by the proctor and video and sound recorded. Recordings are available to NAWCO and are stored for 30 days by the test administration vendor. If the administration is flagged for suspected cheating, the recording is stored for one year.
